Attachments: Results Table and Well Tables 03292018 (002).xlsx

Kathy and Nate,

Thank you very much for your patience and great comments yesterday. It was very helpful. Here is the account code for Procino Plating: A3RFQB0003WTDD2. I am in the process of creating a new site to address PFAS across the whole site. I am waiting for Yazmine to sign the paperwork. I will let you know when the new code is available.

In addition I will be continuously updating the tables with new information. I will be adding lithological and other groundwater data as we plan the SI. The table can be found at the location listed below. I will also send an update .GMZ file in a little bit. I am reworking a couple items after we spoke.

Subject: Account code

Hi Connor,

Thank you for the information this morning. It was very interesting, clearly you've already done a lot of work! Could you send Nate and me the account code for the site? Thanks.

Kathy
